

GAIA™ Chlorine FREE™

- 100% Recyclable Hydraulic Hose
- 100% Chlorine-Free

GAIA - THE FIRST 100% RECYCLABLE HYDRAULIC HOSE!

Recycling and re-purposing of hydraulic hoses has always been a challenge.

GAIA hoses have been specifically designed to meet the ever-increasing performance demands of high-pressure hydraulics, whilst maintaining a focus on end-of-life disposal.

Environmental and Sustainability Credentials

- Rubber compounds do not contain chlorine, making them fully recyclable
- Reduction in end-of-life disposal / recycling costs
- Contributes towards an improved Environmental, Social & Governance (ESG) performance
- Manufacturing process is more environmentally friendly
- Compliant with OEM manufacturers' Green Policies

THE MANULI EARTH-FIRST PROJECT

Earth-First is a global sustainability initiative throughout the entire Manuli Hydraulics organisation.

We focus on the development of environmentally-conscious products, utilising sustainable raw materials and greener manufacturing processes. In this way we are leading the hydraulic connectors industry towards a more sustainable future.

When you see the Manuli Earth-First badge on a product, you can be sure that it has been developed to be as sustainable and environmentally-sound as possible, without compromising on performance and quality.

Additional Features

- High impulse resistance
- Excellent flexibility and ultra-low minimum bend radius
- Chlorine-free cover has the same abrasion, ozone, aging and fire resistance properties as the Manuli "STRONG" cover
- Skive and no-skive fully integrated fitting solutions available

Weight loss after 2,000 cycles (EN 853 abrasion test)

MSHA certification of Chlorine-free cover compound

Fully Integrated Fitting Solutions

GAIA hoses are designed to work seamlessly with a wide range of both skive and no-skive Manuli fittings, making them ideal for OEM and workshop assembly, as well as for on-site assembly in maintenance situations.

Multifit & Interlock Plus Skive Solutions

Multifit is a universal fitting solution and is the core of the Manuli Hydraulics integrated approach.

Interlock Plus is a highly robust, double-skive fitting solution.

One-Piece & Spiralfit No-Skive Solutions

Manuli also offers no-skive fitting solutions, including one-piece fittings and Spiralfit two-piece fittings.

KEY FEATURES

- Bend radius which exceed the standard requirements by - 30% to -50%
- Good flexibility in the whole temperature range
- Easy mounting in any installation
- High impulse resistance according to ISO 18752 requirements
- Weight saving of 20% vs traditional hose construction
- No-skive fitting solution is available
- Isobaric pressure rating for easy selection and product management

APPLICATIONS & FLUIDS

- Chlorine free requirements
- High pressure power lines for general hydraulics
- Applications with installation constraints (short assemblies, compact spaces, low bend radii, etc.)
- Mineral oils, vegetable oils and synthetic ester based oils (up to 100°C/212°F), glycols and polyglycols, mineral oils in aqueous emulsion, water

CONTINUOUS SERVICE TEMPERATURE RANGE

-46 °C, -50 °F

121 °C, 250 °F

TUBE

Oil resistant synthetic rubber

REINFORCEMENT

Two high tensile steel wire braids (DN 10, 12, 16), Multiple high tensile steel wire spirals (DN 19, 25)

COVER

Special cover compound designed to be chlorine-free with high abrasion and ozone resistance

APPLICABLE SPECS

ISO 18752-C/D (WB structures are Grade C, WS structures are Grade D with STD1 only); JIS K6349
