

SNOW HERO

MANICHETTA PER SISTEMI D'INNEVAMENTO RACCORDATA CAMLOCK

- Good visibility in snow, even in twilight
- Has an additional reflective strip to increase visibility in difficult conditions
- High continuous working pressure, sufficient reserves for pressure peaks
- Resistant to abrasion, ageing rotting, UV radiation
- Stays flexible at cold temperatures
- Fitted with CAMLOCK type connectors in a high-pressure 60 bar stainless steel version

Technical characteristics

Hose Type	For snowing
Lining	High-grade EPDM rubber
Jacket Lining	High-tenacity polyester yarn
Outer coating	Abrasion-resistant special coating in signal color
Inside diameter in mm	52
Weight in g/m	503

Wall thickness in mm	1.1
Working Pressure in bar	40
Burst pressure in bar	120
Temperature range	-40°C to +80°C
Colours	Yellow

Codice	Diametro (mm)	Lunghezza (mt)
SNOWHERO-052-005	52	5
SNOWHERO-052-010	52	10
SNOWHERO-052-020	52	20
